

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
		GOAL 1: CLEAN AIR & GLOBAL CLIMATE CHANGE	GOAL 1: CLEAN AIR & GLOBAL CLIMATE CHANGE
		Objective 1.1 Healthier Outdoor Air	Objective 1.1 Healthier Outdoor Air
		Sub-Objective 1.1.1 More People Breathing Cleaner Air	Sub-Objective 1.1.1 More People Breathing Cleaner Air
		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Initiatives to Further Control Ground Level Ozone & Fine PM (Heading)
MassDEP		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Make air quality related data available to the public
PPA	1	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	In order to provide public real-time air quality information, continue to submit ozone and PM2.5 data and ozone and PM2.5 forecasts to the Data Management Center
PPA	2	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Participate in Northeast Diesel Collaborative to advance state and regional programs to reduce diesel emissions
PPA	3	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Ozone Attainment Plans: Participate in OTC attainment planning to develop coordinated regional modeling and ozone attainment plans.
PPA	4	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit a final 2002 SIP inventory for Massachusetts' no attainment areas. Collect and submit to EPA 2005 annual emissions data from point sources.
PPA	5	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	CAIR: Develop CAIR rules and submit to EPA by September 2006 or submit abbreviated CAIR SIP by March 2007.
PPA	6	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit 8-hr ozone NAAQS modeled control strategies.
PPA	7	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Develop regulation based on OTC model rules for portable fuel containers.
PPA	8	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Revise existing MA regulations for consumer products and architectural industrial maintenance(AIM) coatings to be consistent with OTC model rules.
PPA	9	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Revise existing MA regulations for solvent cleaning to be consistent with OTC model rules.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	10	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit a RACT SIP for applicable VOC and NOx sources by September 2006.
PPA	11	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit draft and final RFP SIPs for each ozone nonattainment area. Final RFP SIPs are due by June 2007.
PPA	12	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit final ozone attainment plans by June 2007.
PPA	14	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Process conformity determinations for ozone and CO nonattainment and maintenance areas
MassDEP		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Identify and implement the additional reductions in NOX and VOC emissions needed to attain ambient ozone standard
PPA	15	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit letter to EPA clarifying implementation of OBD2 SIP.
PPA	16	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Complete and submit annual I/M reports to EPA.
PPA	17	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Submit SIP showing that MA does not significantly contribute to nonattainment or maintenance problems for the PM2.5 NAAQS in downwind states. (EPA has issued technical and policy guidance that MA can use to make this demonstration.)
MassDEP		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Interstate transport of air pollutants: Work on Northeast/Midwest States collaboration to control
MassDEP		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Ensure that emissions from mobile air pollution sources are adequately controlled through transportation control planning,
		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Regional Haze	Initiatives to Control Regional Haze (Heading)
PPA	18	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Regional Haze	Participate in the northeast regional haze planning organization Mid-Atlantic and Northeast States Visibility Union (MANE VU).
PPA	19	Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Regional Haze	Based on MANE VU template, develop regional haze SIP, with BART provisions, for submittal to EPA by December 2007.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Title V / NSR Permits	Title V / NSR Permits (Heading)
MassDEP		Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Issue permits that limit emissions of air pollutants at major and minor sources of air pollution
PPA	20	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Respond to EPA's comments on state's NSR equivalency demonstration, if necessary.
PPA	21	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Complete issuance of initial Title V permits and ensure timely submittal by sources of Title V renewal applications and timely issuance of permit renewals (barring factors outside MassDEP's control)
PPA	22	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Issue 94 per cent of significant Title V operating permit revisions within 18 months of receiving a complete permit application. Provide necessary data to document the goal every six months (barring factors outside MassDEP's control)
PPA	23	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Issue 87 per cent of Title V operating permits within 18 months of receiving a new complete permit application. Provide necessary data to document the goal every six months (barring factors outside MassDEP's control)
PPA	24	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	75 Percent of major NSR permits are issued within 12 months of receiving a complete permit application. Provide necessary data to document the goal every six months (barring factors outside MassDEP's control).
PPA	25	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Cooperate with EPA in its title V permit program evaluation. Respond and implement within 90 days EPA's recommendations, as warranted.
PPA	26	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Staff from MassDEP and US EPA-Region 1 will collaboratively work together to put in place an agreement whereby whenever MassDEP issues a new minor source plan approval under 310 CMR 7.00 to a source that has previously been issued a PSD permit by the Commonwealth, MassDEP would be responsible for drafting and submitting to US EPA-Region 1 provisions updating that source's PSD permit to make the PSD permit provisions consistent with the requirements of the newly issued- MassDEP plan-approval and whereby EPA-Region I will process the source's application for a PSD permit modification based on MassDEP's minor source plan approval. The list of sources subject to this agreement are those had been issued PSD permits previously by MassDEP and is identified in a June 17, 2003 Federal Register notice.
PPA	27	Sub-Objective 1.1.1 More People Breathing Cleaner Air -Title V and NSR Permits	Make timely submittals to EPA's RACT, BACT, LAER Clearinghouse.
		Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants
		Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Initiatives to further control Air Toxics (Heading)
PPA	28	Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Continue delegation and implementation of toxic requirements under section 112, 129, and 111(d), as appropriate, for major sources rules, area source rules, and residual risk rules.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	29	Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Explore strategies to reduce human health risks indicated by state and national air toxics assessment analyses. Mechanisms include participation in NESCAUM Public Health Subcommittee and ongoing community efforts to reduce risk.
MassDEP		Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Redesign of the asbestos control program for renovation and demolition program
PPA	30	Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Work to implement strategies under mercury action plan.
PPA	31	Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	By December 2006, submit section 111(d) plan for mercury emissions from power plants.
MassDEP		Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Implement the asbestos control program construction and demolition projects
PPA	32	Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Evaluate what efforts can be made in preparing 2005 Emission Inventories for Hazardous Air Pollutants.
MassDEP		Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Diesel Strategy Development
MassDEP		Sub-Objective 1.1.2 Reduced Risk from Toxic Air Pollutants-- Air toxics	Complete issuance of plan approvals for Hg emissions at power plants
		Objective 1.2 Healthier Indoor Air	Objective 1.2 Healthier Indoor Air
		Sub-Objective 1.4.2 Maintain Emergency Response Readiness	Sub-Objective 1.4.2 Maintain Emergency Response Readiness
PPA	34	Sub-Objective 1.4.2 Maintain Emergency Response Readiness	EPA will continue to work with the New England states on Homeland Security and emergency response readiness issues through routine, day-to-day coordination and the existing Regional Response
		Objective 1.5 Reduce Greenhouse Gas Intensity	Objective 1.5 Reduce Greenhouse Gas Intensity
PPA	35	Objective 1.5 Reduce Greenhouse Gas Intensity	Work to implement strategies under Climate Change Action Plan
		Objective 1.6 Enhance Science & Research	Objective 1.6 Enhance Science & Research
		Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Air Monitoring (Heading)
		Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Sub-Objective 1.6.1 Provide Science to Support Air Program
PPA	36	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Air Monitoring Network: Implement initial EPA approved changes to the air monitoring network to transition from the traditional NAMS/SLAMS framework to the framework for ambient air monitoring in the US as detailed in the National Ambient Air Monitoring Strategy.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	37	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Air Monitoring Network: Operate NCore multi-pollutant precursor gas sites established with FY2006 or earlier funds and report data from these sites to AQS.
PPA	38	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Air Monitoring Network: Submit to EPA by July 1 the annual air monitoring network review and schedule (40CFR58.20d, 58.25 & 58.46) and annual PM report (40CFR58.26).
PPA	39	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Air Monitoring Network: Operate EPA-approved network (SLAMS, PAMS, PM), enter the air monitoring, precision and accuracy data into AQS within 90 days (180 days for VOCs) of the end of each calendar quarter (40CFR58.28, 58.35, & 58.45) and submit the annual SLAMS report by July 1 (40CFR58.26).
PPA	40	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Toxics Air Monitoring: Continue operation of the toxics air monitoring sites and enter the data into AQS.
PPA	41	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Quality Assurance: Update all approved QAPPs annually and five year revisions as needed. Ensure adequate, independent QA audits of NAAQS monitors or participate in NPAP and PEP QA programs.
PPA	42	Sub-Objective 1.6.1 Provide Science to Support Air Program --Air Monitoring	Continue implementation of the corrective actions from the EPA's technical systems audit (TSA) of DEP's program.
		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains	Objective 1.7 (MassDEP Objective) Clean Air and Global Climate Change: Maintaining Prior Gains
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Stationary Source Compliance Assurance	Ensure that stationary air pollution sources comply with permits, performance standards, and reporting requirements, through report reviews, emissions monitoring, inspections, technical assistance, and enforcement actions
EPA		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Stationary Source Compliance Assurance	Conducting Onsite Full Compliance evaluations at Air Operating Permit sources and taking enforcement follow up as needed per the EPA Compliance Monitoring Strategy as modified for MA
EPA		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Stationary Source Compliance Assurance	Conducting Offsite Full Compliance evaluations at Air Operating Permit sources and taking appropriate enforcement follow up as needed per the EPA Compliance Monitoring Strategy as modified for MA
EPA		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Stationary Source Compliance Assurance	Conducting onsite full compliance evaluations at RESm80 air pollution sources and taking appropriate enforcement follow up as needed per the EPA Compliance Monitoring Strategy as modified for MA

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
EPA		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Stationary Source Compliance Assurance	Conducting onsite full compliance evaluations at minor air pollution sources taking appropriate enforcement follow up as needed per the EPA Compliance Monitoring Strategy as modified for MA
EPA		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Stationary Source Compliance Assurance	Continue to submit required information to AIRs data systems
MassDEP		Objective 1.7 CLEAN AIR & GLOBAL CLIMATE CHANGE -MAINTAINING PRIOR GAINS (new) -- Stationary Source Compliance Assurance	Respond to the results of the EPA Compliance program review
EPA		Objective 1.7 CLEAN AIR & GLOBAL CLIMATE CHANGE -MAINTAINING PRIOR GAINS (new) -- Stationary Source Compliance Assurance	Continue to populate EPA's Air Facilities System (AFS) data base
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Mobile Source Compliance Assurance	Ensure that emissions from mobile air pollution sources are adequately controlled through the enforcement of the tailpipe emissions limits and implementation of other control tail pipe emission control programs
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Mobile Source Compliance Assurance	Continuing to implement the I&M program
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Mobile Source Compliance Assurance	Award new contract for I& M tail pipe emission testing
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Mobile Source Compliance Assurance	Commercial Fleet Anti idling
MassDEP		Sub-Objective 1.1.1 More People Breathing Cleaner Air -- Ozone and Fine Particulate	Central artery / transit agreement implementation
MassDEP		Objective 1.7 CLEAN AIR & GLOBAL CLIMATE CHANGE -MAINTAINING PRIOR GAINS (new) -- Emission Inventories	Maintaining air pollutant emissions inventories
EPA		Objective 1.7 CLEAN AIR & GLOBAL CLIMATE CHANGE -MAINTAINING PRIOR GAINS (new) -- Emission Inventories	Continue to populate EPA's National Emission Inventory (NEI) data base
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Emission Inventories	Rebuild source registration system
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Emission Inventories	Convert source registration system to eDEP
MassDEP		Objective 1.7 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy Development	Develop regulations and standards to address specific problems (Heading)

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - Stage II Revisions
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - ERP Boilers: allow Ultra Low Sulfur Fuel Use
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - Combined heat and power rule
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ- Emergency Engines Tier IV Federal standards
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - Deal with Federal MACT for Dry Cleaners
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	C&T I&M Heavy Duty Diesel Cut Points Regulations
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	C&T Chip Relfash rule for heavy duty truck engines for the 8 hour ozone attainment SIP
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - Biomass emission standards in conjunction with DOER's renewable energy credit program changes
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - Outdoor wood-fired boilers
MassDEP		<del>Objective 1.1 Clean Air and Global Climate Change: Maintaining Prior Gains (new) -- Non SIP related Regulation and Policy</del>	AQ - Prescribed Open Burning
		GOAL 2: CLEAN & SAFE WATER	GOAL 2: CLEAN & SAFE WATER
		Objective 2.1 Protect Human Health	Objective 2.1 Protect Human Health
		Sub-Objective 2.1.1 Water Safe to Drink	Sub-Objective 2.1.1 Water Safe to Drink
		Sub-Objective 2.1.1 Water Safe to Drink: Certification of Drinking Water Labs	Certification of Drinking Water Labs (Heading)
PPA	43	Sub-Objective 2.1.1 Water Safe to Drink: Certification of Drinking Water Labs	Maintain laboratory certification for state labs; follow up on any action items resulting from laboratory audits; maintain required schedule for private laboratory inspections.
		Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Source Water Protection (Heading)

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	44	Sub-Objective 2.1.1 Water Safe to Drink: Source Water Protection	Continue to support implementation of local programs and, where appropriate, continue to integrate source water protection implementation into other programs appropriate (e.g., UIC, stormwater).
		Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Drinking Water (Heading)
PPA	45	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Work to achieve target of 90% of population served by CWSs having drinking water that meets all applicable health-based standards (this includes a sub-objective of meeting target of 92% of the population served by CWSs having drinking water that meets health-based standards with which systems need to comply as of December 2001).
PPA	46	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Work to achieve target of 91% of CWSs that provide drinking water that meets health-based standards with which systems need to comply as of December 2001.
PPA	47	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	LT2/Stage2: coordinate with the Region on early implementation issues; work on primacy package.
PPA	48	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Sanitary surveys: expand use of electronic sanitary survey tool; conduct surveys of CWS and NTNCWS on three-year cycle, TNCWSs on five-year cycle.
PPA	49	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Data verifications: follow-up/correction of deficiencies noted in 2005 DV.
PPA	50	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Security/Emergency Response: continue to coordinate with EPA on security workshops, drills and pandemic planning.
PPA	51	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Continue to follow-up on any LCR action items (e.g., follow-up on LCR data verification).
PPA	52	Sub-Objective 2.1.1 Water Safe to Drink: Drinking Water	Maintain timely and accurate reporting to SDWIS.
		Sub-Objective 2.1.1 Water Safe to Drink: UIC	UIC (Heading)
PPA	53	Sub-Objective 2.1.1 Water Safe to Drink: UIC	Continue to close identified Class V motor vehicle waste disposal wells; continue to report UIC activities to EPA per 7520 form (e.g., number of inspections conducted, number of permits issued, etc.)
		Sub-Objective 2.1.3 Water Safe for Swimming	Sub-Objective 2.1.3 Water Safe for Swimming

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
		Sub-Objective 2.1.3 Water Safe for Swimming: Beaches	Beaches (Heading)
PPA	54	Sub-Objective 2.1.3 Water Safe for Swimming: Beaches	Coordinate with MA DPH to implement beach monitoring program, including meeting performance criteria established by federal BEACH Act to remain eligible for FY07 beach grant.
PPA	55	Sub-Objective 2.1.3 Water Safe for Swimming: Beaches	Participate in Regional Beach Initiative, including interagency beach workgroup and using "Flagship" beaches, Salem and Provincetown municipal beaches and Wollaston Beach, as models for state beach program.
		Objective 2.2 Protect Water Quality	Objective 2.2 Protect Water Quality
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	303(d)/305(b)
PPA	56	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	Submit updated electronic assessment files by April 1, 2007, pending EPA approval of MA's 303(d) list.
PPA	57	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	All new assessments done for the 2006 Integrated Report should be input into ADB within six months of hiring new staff, and pending EPA approval of MA's 303(d) list.
PPA	58	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	Georeference waters to 1:25,000; MA will georeference to NHD when able to tie into NHD
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	Monitoring

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	59	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	Continue implementing final comprehensive water monitoring strategy covering lakes, rivers, estuaries, during FY2007.
PPA	60	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	Report on outcomes of monitoring activities using FY2005 and FY2006 106 supplemental funding for monitoring by Sept. 30, 2007, and prepare workplan for FY2007 106 supplemental funds by May 15, 2007.
PPA	61	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: 303(d)/305(b)	Develop draft wetlands monitoring strategy by December 31, 2006 and final strategy by Sept. 30, 2007.
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Water Quality Standards - Biological, Nutrient, Temperature	Water Quality Standards - Biological, Nutrient, Temperature
PPA	62	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Water Quality Standards - Biological, Nutrient, Temperature	Continue efforts toward addressing flow quantity and water level issues to ensure protection of in stream waters uses - at this point effort lead by other EOEAs offices.
PPA	63	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Water Quality Standards - Biological, Nutrient, Temperature	Start development of numerical biological criteria for WQS.
PPA	64	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Water Quality Standards - Biological, Nutrient, Temperature	Continue efforts, including coordination with EPA, towards adoption of appropriate WQS revisions.
PPA	65	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Water Quality Standards - Biological, Nutrient, Temperature	Continue to develop nutrient criteria in accordance with the Nutrient Criteria Development and Adoption Plan.
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Watershed Approach	Watershed Approach (Please refer to EPA's proposed revisions to its strategic plan (2008-2012) and the national water program guidance for FY'07 for further description of the watershed measures)
PPA	66	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Watershed Approach	Using the PPA process, 303(d) list, the nonpoint source RFP, national estuary program CCMP, and other state processes, identify priority watersheds and water bodies for the state to focus effort to protect and improve water quality. Assist EPA Region 1 in developing targets for FY'08 and reporting progress for FY'07 on the watershed measures L, Y, and W.
PPA	67	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Watershed Approach	In those priority water bodies and watersheds, leverage existing tools such as the state's TMDL, nonpoint source, water quality, permit, SRF grant, national estuary, and source water assessment programs to concentrate implementation efforts and to measure improvements.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	68	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Watershed Approach	Identify and submit a list of water bodies to EPA that the state will fully restore (measure L) or partially restore (measure Y) over the next several years (through 2012).
PPA	69	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Watershed Approach	For measure W, work with EPA Region 1 to develop and submit a list of impaired watersheds (at the 12-digit level) that the state will most likely improve by 2012, and include the projected date of the improvement. The list should also include impaired watersheds where significant work is underway that "may" meet the improved definition by 2012 as well as those watersheds where significant work is underway that will probably not improve by 2012.
PPA	70	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: Watershed Approach	Periodically provide input to EPA-New England on draft regional watershed game plan. Work collaboratively with the region to better measure and report results annually.
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPS 319	NPS 319 (Heading)
PPA	71	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPS 320	Continue to use the 2004 Nonpoint Source Program and Grants Guidelines for States and Territories to identify eligible activities, program priorities and reporting requirements. Additional guidance is in the national computational guidance
PPA	72	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPS 321	Continue to work with other government agencies to influence the targeting of a portion of the Farm Bill Programs (e.g., EQIP) to areas of environmental concern (i.e., impaired waters, fragile waters in need of protection, and a watershed approach)
PPA	73	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPS 322	Continue to identify priority segments or watersheds for NPS funding as part of its RFP process. Increase the NPS program performance in the restoration or partial restoration of impaired waters and prepare and submit a success story for a representative number of restored or partially restored water bodies.
PPA	74	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPS 323	Continue to enter all 319 grant dollars and mandatory data elements into the Grants Reporting Tracking System (GRTS) by Feb 15th of each year.
PPA	75	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPS 324	Continue to ensure that watershed based plans developed using incremental dollars portion of the 319 funds will contain the 9 (a-i) elements specified in the 2004 guidance the state will report by name each watershed based plan that supported under NPS Management programs since FY 2002 that have been substantially implemented
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES Development	NPDES Development (Heading)
PPA	76	Sub-Objective 2.2.1 Improve water Quality on a Watershed Basis: NPDES Development	Complete drafts for all permits for which the DEP agreed to prepare prior, including those agreed to prior to FY2005.
PPA	77	Sub-Objective 2.2.1 Improve water Quality on a Watershed Basis: NPDES Development	Identify NPDES work-sharing activities for FY 2007, including Blackstone watershed permits.
PPA	78	Sub-Objective 2.2.1 Improve water Quality on a Watershed Basis: NPDES Development	Develops plan and schedule for NPDES Delegation by 6/30/07.
PPA	79	Sub-Objective 2.2.1 Improve water Quality on a Watershed Basis: NPDES Development	Participate in bi-monthly coordination and planning calls on the status of joint NPDES permits.
PPA	80	Sub-Objective 2.2.1 Improve water Quality on a Watershed Basis: NPDES Development	Coordinate on NPDES Permitting for Power Plants.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	81	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Assist EPA in responding to comments received during public comment periods.
PPA	82	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Assist EPA in defending NPDES permit appeals.
PPA	83	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Continue current level of effort on joint administration and enforcement of the Phase II MS4 Permit.
PPA	84	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Current level of effort on reviewing and commenting on targeted Phase II MS4 Notices of Intent and Annual Reports.
PPA	85	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Continue current level of support to the regional program by helping with storm water permitting outreach efforts.
PPA	86	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Assist in the joint reissuance of Phase I MS4 permits for Boston and Worcester.
PPA	87	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Review and certify the reissued multi-sector general permit. Assist in planning for reissuance of next Small MS4 General Permit.
PPA	88	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Continue to work with EPA to approve and enforce Long Term CSO Control Plans.
PPA	89	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: NPDES	Continue to work with EPA to reconcile policy issues related to variances/water quality standards determinations/and affordability issues.
		Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: TMDL Development	TMDL Development (Heading)
PPA	90	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: TMDL Development	Complete any remaining prior year TMDL commitments.
PPA	91	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: TMDL Development	Commit to completion of an additional number of TMDLs for FY07, and provide a tentative list of waterbodies involved by October 31, 2006 (future substitutions allowed).
PPA	92	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: TMDL Development	Participate in Region 1/State TMDL Innovations effort to improve environmental effectiveness of the TMDL program.
PPA	93	Sub-Objective 2.2.1 Improve Water Quality on a Watershed Basis: TMDL Development	Suggested TMDL commitment target range for FY06: 91-180
		Sub-Objective 2.2.2 Improve Coastal & Ocean Waters	Sub-Objective 2.2.2 Improve Coastal & Ocean Waters
		Sub-Objective 2.2.2 Improve Coastal & Ocean Waters: Dredged Material Management	Dredged Material Management (Heading)
PPA	94	Sub-Objective 2.2.2 Improve Coastal & Ocean Waters: Dredged Material Management	Participate on Regional Dredging Team Technical Workgroup (aka Sudbury Group) to coordinate with other federal and state agencies on planning and regulatory activities associated with dredging and dredged material management.
PPA	95	Sub-Objective 2.2.2 Improve Coastal & Ocean Waters: Dredged Material Management	Coordinate with MA CZM to regulate dredging and dredged material disposal in MA coastal waters.
		Objective 2.3 Science & Research	Objective 2.3 Science & Research
		Sub-Objective 2.3.1 Apply Best Available Science	Sub-Objective 2.3.1 Apply Best Available Science

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
		Sub-Objective 2.3.1 Apply Best Available Science	Continue working with USGS on safe yield estimator.

Origin	P&C #	EPA Goal / Objective / category	GOALS/OBJECTIVES/ACTIVITIES
PPA	129	Re-Opener Clause	The Regional Office will strive to honor the spirit of the PPA. In keeping with this spirit the Region will work with EPA HQ to limit the impact of unexpected demands on the states. To address New, very high priority issues that might emerge a re-opener clause will be included as part of this process permitting the Regional Office and/or the state to introduce necessary changes to the PPA.
PPA	130	Re-Opener Clause	A process for jointly evaluating and reporting progress and accomplishments under the workplan must be developed and described in the workplan. The process must be based on a negotiated schedule. (40CFR35.115)
PPA	131	Re-Opener Clause	An annual written progress report must be submitted within 90 days after the end of the annual grant period. (40CFR35.115, 40CFR31.
		QMP QAPP	QMP QAPP
PPA	132	QMP QAPP	Continue to implement the State Quality Management Plan (QMP) and submit an annual update letter to the EPA-NE Quality Assurance Unit documenting progress over the year and any changes made to the QMP.
PPA	133	QMP QAPP	Submit, to EPA-NE Quality Assurance Unit, an updated annual list of new and active approved Quality Assurance Project Plans (QAPPs), including Sampling and Analysis Plans/QAPP Addendums approved under generic Program QAPPs.

STATUS
ongoing
ongoing
Participated in bi-monthly NEDC calls to coordinate regional diesel reduction efforts and promoted regional projects for diesel retrofits.
Participated in all OTC Committee and work group forums (conference calls, meetings, stakeholder work shops); chaired the OTC Modeling Committee (monthly policy calls, technical work shops); participated in monthly OTC Air Director and Commissioner conference calls; attendance at the Nov.06, March 07 and June 07 OTC meetings; made presentations on the modeling results at these meetings.
Revised 2002 Base Year inventory (data and narrative) was posted in our web site in June 2006 and was available for review through Nov 07. Subsequent to June 2006, pursuant to the OTC regional planning process (which used a regional inventory), we revised our inventory methodology for certain categories to be consistent with other OTC states. The final 2002 Base Year inventory is part of the 12/07 proposed Ozone Attainment SIP. 2005 point source data was submitted to EPA in 12/07. The Final SIP, including the inventory will be submitted to EPA in January 2008.
Public hearings were held in Feb. 2007 and we submitted our final MassCAIR regulation and SIP by EPA's March 30 deadline. (EPA formally approved our regulation and SIP on December 3, 2007.)
DEP staff participated in the OTC modeling and control strategy committees that developed the regional attainment modeling for the 8 hour Ozone National Ambient Air Quality Standards (NAAQS); it demonstrates that MA will attain the ozone standard by 2009. The modeling was completed in April-May 2007. We submitted a draft of the modeling attainment demonstration section of the ozone SIP to EPA on June 27, 2007. The complete proposed ozone attainment SIP was issued for public hearing in Dec 07.) The SIP, with the modelling that shows that the 8 hour ozone standard will be attained will be submitted to EPA in January 2008.
Decided not to adopt state regulation since EPA promulgated adequate national rule.
Public hearings on revised consumer products and AIM coatings rule were held in Feb. 2007. Final revisions promulgated in October 2007.
Developed internal draft of solvent cleaning rule; Expect promulgation late 2008

STATUS
Prepared a draft RACT SIP in 2006 but did not issue it for public hearing and submittal by 9/06. The RACT SIP analysis is now part of the proposed ozone attainment SIP. Final SIP to be submitted to EPA January 2008
Submitted a Reasonable Further Progress (RFP) analysis demonstrating 15% reductions by 2008 was submitted to EPA for informal review in May 2007. EPA comments were addressed. The RFP demonstration is one section of the 8-hour ozone attainment SIP issued for hearing in Dec. 07. SIP to be submitted to EPA January 2008
On June 15, 2007, we submitted to EPA the 2002 Base Year Inventory portion of the ozone attainment SIP and a proposed schedule for completion of other 8-hour ozone standard SIP requirements. Final attainment SIP was not submitted by June 15 due date. Proposed ozone attainment SIP was issued for public hearing in Dec 07. Final SIP will be submitted in January 2008
MassDEP reviewed annual conformity findings of the MA metropolitan planning organizations to ensure transportation programs and projects are consistent with and support the goals of the SIP.
Identification of additional controls to reduce VOC and NOx was accomplished through the OTC regional planning process and EPA's CAIR. We have promulgated regulations to implement some of these measures, including MassCAIR (final 3/07) and AIM/Consumer Products (final 10/07). Regulations for other measures are under development as of 9/20
Submittal planned for March 2008
06 annual report submitted in August 2007, on schedule; '07 report not due until 7/08
Transport SIP draft was provided to EPA Region 1 for review in August. It demonstrates that, with the implementation of the MassCAIR rule, emissions from MA will not contribute to ozone or PM 2.5 nonattainment in other states. Transport SIP was issued for public hearing in Dec. 07
Participation in the monthly OTC/MidWest Collaborative Conference calls
Duplicate of PPA item #14 above " <i>Process conformity determinations for ozone and CO nonattainment and maintenance areas</i> "
Participation in the technical Support Committee conference calls and meetings; stakeholder meetings; monthly Air Director meetings; annual science work shop; MANE-VU Board meeting; input into identification of additional reasonable strategies for controlling the pollutants that cause regional haze that could achieve the desired reductions on a faster timetable than that have been identified as providing a straight line rate of progress toward the reduction goal (primarily the ozone attainment strategies implemented through the CAIR SIP) and development of consultation process to ask other regions to provide comparable emission reductions
Worked with NESCAUM and MARAMA on developing the SIP template that will be used in the regional haze SIP

STATUS
DWR approved 133 permits, denied 1 permit and determined that 6 were unnecessary. An addition 12 permits were withdrawn by the applicant
ongoing
ongoing: data will be provided to EPA January 31, 2008 per reporting requirements
ongoing: data will be provided to EPA January 31, 2008 per reporting requirements
ongoing: data will be provided to EPA January 31, 2008 per reporting requirements
There is one active permit application at present
Complete- final report issued in September 2006. EPA recognized MassDEP for a number of good practices including creating boilerplate permit language and getting EPA review prior to writing any permits, the development of an operating permit reporting kit which provides instructions and forms to facilitate compliance and open discussions with applicants along with mandatory site visits to understanding by sources and MassDEP permitting staff
MassDEP did try to work collaboratively with US EPA, but the results were mixed. We returned \$25K in 105 funds to allow EPA to hire help and to pay the administrative costs associated with process PSD permits. During this period, there were 3 projects to my knowledge that needed a modification to their PSD permit. One withdrew after receiving MassDEP approval (MassPower); another is still in process; and one was issued.
Have not updated system.
Accepted delegation for all applicable section 112 maximum Achievable Control Technology (MACT) standards that EPA referred to us. Under section 129 and 111(d), we have not amended the 7.08(2) MACT standard for large "Municipal Waste Combusters"(MWC) in response to EPA amendments and we have not responded to "Commercial and Industrial Solid Waste Incineration" (CISWI) and "Other Solid Waste Incineration" requests. We have no sources subject to Emission Guideline for either existing standard, but will when EPA amends regulations in response to the fact that the courts partially upsest the existing regulations

STATUS
MassDEP received applications for hg monitoring plans from Salem Harbor, Brayton Point, and Mount Tom
Reviewed conceptual model of redesign with the Commissioner's office. Coordinated redesign with Division of Occupational Safety in the Department of Labor
Implemented the Dental Certification program, started implementation of the Mercury Act, and the new mercury emissions restrictions on the large power plants
Held public hearings in Nov. 2006; submitted final plan and revised regulations in May 2007.
BWP processed 1953 demolition notices and 15,172 asbestos removal notices, conducted 673 inspections and issued 23 Higher Level (orders, fines, penalties) and 1 Lower Level (Notice of Non Compliance) enforcement actions
Deferred action until completion of outstanding SIP revisions due to staffing shortfalls
NESCAUM project on ability to reach 75% reduction in PM completed in November 2007
MassDEP has received applications for Hg monitoring plans from Salem Harbor, Brayton Point, and Mount Tom, but has used enforcement discretion to postpone deadlines for the Mercury Emission Control Plans to coincide with the requirement to submit and receive plan approval for the new CO2 emission limits.
Prepared ideas for Commissioner's office on actions (regulatory and incentive based) DEP could initiate to reduce GHG and how that might fit w/in a broader state context. Goals of achieving 20% redux in GHG emissions by 2020 have been discussed.
ongoing

STATUS
Roxbury is the Massachusetts NCORE site. The site is 95% deployed. Full deployment is not required until 2011
Completed
Completed
On Schedule
Complying with requirements. PAMS QAPP revision should be resubmitted in January, 2008
The 2006 audit superceded the 2001 audit. As of now, the three major recommendations of the 2006 audit have been implementd: the ozone callibration procedures are now being done properly at the one site where they had not been, staff has been added to ensure that the PAMS data is being submitted to EPA in a timely manner, and process to hire additional Quality Assurance staff is underway
MassDEP completed 370 site visits of various types, reviewed 1585 self reports, and initiated 48 Higher Level Enforcement Actions (orders, penalties, fines) and 97 Lower Level Enforcement Actions (Notices of Noncompliance)
BWP conducted onsite full compliance evaluations at 48 air pollution sources with air operating permits
BWP conducted full offsite compliance evaluations at 19 air pollution sources with air operating permits
BWP conducted full onsite compliance evaluations at 58 RES M80 air pollution sources

STATUS
BWP conducted full onsite compliance evaluations at 169 minor air pollution sources
ongoing
wrote a progress report and submitted to EPA. Formulated and finalized a compliance inspection cover sheet and a standardized multimedia inspection form for all regions to use. Submitted these devices to EPA as a response to need for better tracking of inspection file contents, accountability and identification of specific violations as they relate to ultimate enforcement.
ongoing
ongoing
Implementation ongoing
DHS ON RFR received in July '07, award granted to Parsons in early Dec '08; contract negotiations ongoing as of 12/26/07. Final bidder selected in early December. Negotiations in process. Contract signed in January 2008.
BWP conducted 16 inspections and issued 1 Higher Level (orders, fines, or penalties) and 8 Lower Level (Notice of Non Compliance) enforcement actions
Final transit regulation pending EPA approval.
636 source registration forms that were originally due in 2006 were filed in FFY07. 698 of the 812 that were due in FFY07 were received. BWP has issued 109 NONs and 5 RPANs, and will take further enforcement action to make sure that the required source registrations are received.
ongoing
has been developed, and results have been distributed to the regional offices for follow-up, in addition to being used to find errors in submittals and improve the on-line forms. A significant non-compliance level was found and more than 100 NONs/RPANs were generated. A significant cleanup of data has taken place, reconciling classifications with ERP exemptions and true facility status
FFY07, a large backlog of errors were cleared and the forms are now fully functional (although some error correction remains to be completed). Substantial QC improvements were made to the forms that are improving data quality

STATUS
Submitted to the Commissioner's Office for review and approval 7/07. Approved for public hearing December 2007
Regulations completed to be promulgated January 2006. Draft changes to workbook and forms prepared
Regulations drafted, public hearing to be held in in winter 2008
These minor regulatory revisions will be included the next time BWP makes regulatory revisions to the air quality regulations to eliminate minor mistakes and anomalies.
Draft regulations developed. Public Hearings to be held in Winter 2008
Will be included in proposed modifications to Inspection and Maintenance regulations in early '08
This was a regional effort that was abandoned after court challenges in CA succeeded
Biomass BACT guidance adopted as Department policy.
Draft regulations developed. Public Hearings to be held in Winter 2008
Regulatory development underway
In the 2007 EPA audit of WES, the Laboratory Certification Program (LCP) was found to be in full compliance with EPA requirements. LCP inspection frequency of Massachusetts-certified commercial and municipal laboratories exceeds EPA requirements. Most of the corrective actions addressing EPA 2007 audit findings for the WES Laboratories have been completed. Several remaining corrective actions will be completed by March 31 and April 30, 2008, to meet the EPA established timelines.

STATUS
DWP continues to provide support to local source protection programs including bylaw reviews and site visits. Source protection is integrated into other programs through activities such as an ISA with Div. of Fire Services to prioritize tank inspections.
95.2% of CWS population as of EPA's 10/24/07 GPRA summary as having drinking water that meets all applicable health based standards. 96.2% of CWS population meeting existing rules (as of 12/01) as having drinking water that meets all applicable health based standards.
91.3% of CWSs as of EPA's 10/24/07 GPRA summary that provide drinking water that meets health-based standards.
Coordination with EPA Region 1 is on-going (for CWSs on Schedules 1, 2 and 3). On 11/7/07 sought extension for primacy application from 4/1/08 to 4/1/09.
CWS - 193, NTNCWS - 88, TNCWS - 59
to address the more significant deficiencies, the SDWIS/FED data flow has been modernized, as well as a review of TCR and LCR practices in our regional offices should address the more significant deficiencies. A data verification by EPA is planned for Summer 2008.
Conducted security/ER training along with EPA Region 1 staff. Including table top exercises and ICS/NIMS training and certification.
Yes, a review of all LCR sampling plans was conducted to ensure that our program complies with current EPA guidance and new regulations. Although timeliness is still a challenge it is one that we have recently investigated as we attempt to improve it. Accuracy has always been high as confirmed in our Data Verifications (the 2004 DV only identified 3 data flow discrepancies out of 129 action
Motor Vehicle Disposal Wells - 50 Discovered 45 Closed All UIC Closures - 103 Discovered 85 Closed

EPA approved our 2006 integrated list on September 2007. Work is underway to develop the 2008 list by April 2008.
EPA approved our 2006 list on September 28, 2007. We are currently working on the WQX data flow and plan to provide an electronic update once WQX is completed. We estimate this is likely to occur in Winter 2008.
New Assessments for the Hudson, Housatonic, North Coastal, Charles, Ten Mile, and Connecticut watersheds are being incorporated into the ADB for the 2008 Integrated List submittal.
MassDEP is continuing to provide georeferencing to 1:25,000 but cannot go to 1:24,000 until MassGIS provides this data layer.
Physical, chemical and biological monitoring was conducted in the 5 year cycle and in the following watersheds: FFY06 - Westfield, Farmington, SuAsCo, Taunton, 7 South Coastal. FFY07: Hudson, Housatonic, Charles, North Coastal, Ten Mile.

STATUS
Regional monitoring staff have now been hired in 3 of the 4 DEP regions to conduct bacteria source tracking work. BRP is also working on developing a RAM for wetlands assessment and will continue this work in 2008.
Report in progress
MassDEP with EPA financial assistance has awarded a contract to U Mass Amherst to develop a RAM. This work will continue in 2008.
Standards Revisions approved Sept. 19, 2007
MassDEP and EPA have agreed to coordinate a review of the state biological monitoring program. This review is anticipated to occur in Winter 2008.
BRP promulgated revised WQS in December 2006. EPA has approved the majority of the revisions and BRP will be working with EPA to obtain approval for the remaining revisions.
A draft nutrient criteria document was submitted to EPA for internal review in October 2007
success rather than in the short-term. A better short-term measure would be to track the development of TMDLs and identify how many river miles, lake acres, and marine square miles the TMDLs apply to as well as each pollutant. MassDEP can agree to work with Region 1 to provide alternatives measures that closely resemble those above and can be provided within the context of the existing integrated list methodology
Per agreement with EPA, MassDEP is in the process of summarizing regional bacteria source tracking efforts and results in impaired segments and identifying priority watersheds (HUC12) to focus bacteria monitoring efforts in CY2008.
MassDEP's regional bacteria source tracking program is being combined with regional compliance and enforcement efforts to successfully locate and fix numerous illicit bacteria discharges in smaller streams. Other state programs and initiatives - TMDL

STATUS
This will be done after a compilation of the 2007 regional bacteria source tracking efforts and results in early 2008. Significant work is already underway in a number of the bacteria impaired water bodies and will be included in this compilation.
Discussion has occurred with EPA regarding this measure. Additional discussions will be needed and these discussions will occur in FFY08.
DWM provided input into proposed plan when requested.
on going
MassDEP has participated in State Technical Committee Meeting to develop ranking criteria for FY2008 EQUIP projects and has completed this objective.
Developed FY2008 RFR and selected projects.
Attended GRTS meeting.
No activity
5 drafts were completed, meeting the target.
Done
Further discussion between MassDEP and EPA is required regarding this activity. The timeframe for these discussions has not been finalized
Done
MassDEP and EPA are coordinating, as appropriate, for all NPDES permitting for power plants.

FFY07: Final TMDLs submitted: Pleasant Bay N (19), Lower Charles P TMDL (5), Charles River Watershed bacteria (20), Three Bays N (6), Final Regional Hg TMDL (75); FFY08: Draft TMDLs submitted: Centerville Harbor (5), Phinney's Harbor (1), West Falmouth harb
See P&C item #90
Meetings attended when scheduled
MassDEP plans to meet the target range through P&C item 90 and these additional Bacteria TMDLs which are underway in the following watersheds: Islands, South Coastal, Boston harbor, North Coastal, Parker River, Merrimack River, Ipswich River, SuasCo, Blackstone, and Nashua River.
Continuing
Continuing

STATUS
Continuing
Attendance at meetings has been provided but level of commitment is low due to a lack of resources and conflicts with other priorities.
MassDEP participated in plan development and provided staff to assist in the field.
250 permits issued (100%)
As needed, BWP approved 1 groundwater discharge permit
As needed
BWP conducted 43 site visits of various types at industrial wastewater sources, reviewed 721 self reports, and initiated 4 Higher Level (orders, fines, penalties) enforcement actions and 11 (notices of noncompliance) Lower Level Enforcement Actions

STATUS
Regulations revising industrial, and sanitary connection, extension, and discharge requirements, as well as broadening MassDEP's authority to vary ERP certification frequencies in response to ERP sector performance, were promulgated 1/12/07. The industrial sewer regulation revisions reduced and targeted the number of facilities requiring permits, introduced certifications and permits-by-rule, created a statewide 1 ppb mercury sewer discharge limit starting 5/1/09, and authorized initiation of a broad toxic reporting program for industrial sewer dischargers by 1/1/09.
BWP received certifications from 530 dentists and non applicability statements from 276 dentists that owed certifications in FFY 07. In addition BWP is taking appropriate follow up action to verify whether the remaining 338 dentists owe certifications and to obtain the required certifications
MassDEP collaborated with EPA on 2 Wastewise Forums attended by approximately 50 businesses. Over ten new members were signed on as Wastewise Partners/Endorsers. MassDEP coordinated and provided technical assistance on an EPA grant for regional commercial organics collection in Marlboro, MA. MassDEP is coordinating with EPA on efforts to increase recycling at convention centers and special event venues.
Issued Annual 2005 Solid Waste Data Update for 2005 in July 2007. The annual updates tracks progress toward the solid waste reduction strategy. The strategy was most recently updated in the 2006 Solid Waste Master Plan Revision issued in June 2006.
Issued Local Government Disaster Debris Management Guidance in August 2007: Released Local Government Disaster Debris Management Plan Checklist in October 2007. Revised State Disaster Debris Management Plan is currently under internal management review at MassDEP and MEMA, hope to issue in early 2008

STATUS
MassDEP awarded over \$700,000 in municipal recycling grants to advance recycling.
MassDEP partnered with EPA in support of the MassRecycles Paper Campaign. The campaign has established participation with over 180 communities to advance residential paper collection.
MassDEP provided technical assistance to over 10 municipalities interested in implementing PAYT. In addition, MassDEP award three PAYT grants to assist with municipal implementation of PAYT.
<del>MassDEP issued redemption center grants to over 50 redemption</del> centers in support of the bottle deposit law infrastructure. MassDEP worked to develop a template RFR for Resource Mgmt at Colleges and Universities and tested the RFR at Bridgewater State College. MassDEP issued 3 grants under the Recycling Industry Reimbursement Credit Program totaling over \$100,000 to advance in <del>state recycling and remanufacturing</del>
MassDEP has been actively enforcing the solid waste disposal bans and issued over 10 NON's to commercial generators of waste.
MassDEP continues to implement the Supermarket Recycling Certification Program and has over 60 supermarkets currently certified. Certification requires the supermarket divert organics, cardboard and shrink-wrap. MassDEP implemented the EPA grant to increase capacity for managing organics through assistance to local farmers and organics processors to enhance operations.
Complete- Application was submitted to EPA in November 2007.
BWP approved 100 permits related to hazardous waste management, denied 6 and determined that 5 were not required. In addition 4 were withdrawn by the applicant
Three TSDF permit renewals were issued between 10/01/06-9/30/07. The facilities are Safety Kleen Bridgewater, Murphys Waste Oil and ECC Corp.
PPA 101-109 Not PPG eligible - all states are eligible except Massachusetts; MA State Fire Marshal has its own categorical grant.

STATUS
Ongoing
Continued to improve and expand ER staff training , which is modeled after the plan EPA developed for its own responders. Highlights in 2007 include a 3-day Hazardous Materials Technician course attended by all MassDEP responders, Air Monitoring for Emergency responders, OSC readiness training conference, Level A drill, and fast-developed a comprehensive computerized equipment repair tracking system. Provided Scott Respirator Field Technician certification training to our staff and others to ensure that compatible respirator equipment can be repaired in the field. Purchased the Draeger Chip
Participated in Region I RRT meetings, co-chaired Boston Area Planning Committee meetings, attended WMD laboratory awareness training, and was a key participant in developing and implementing highway traffic incident response training with and for other state agencies and responders.
Met goal with EI's for Zecco and SK- Marlboro
Met goal with EI's for Zecco and SK- Marlboro
Achieved Remedy selection at 1 facility (SK-West Brookfield)
Achieved Construction Complete at 1 facility (SK-West Brookfield)
Action completed. Financial assurance status reviews of all 25 RCRA facilities and 72 solid waste facilities were conducted.
Action completed (see above) On March 2, 2007 MassDEP drew on the \$90,000 financial instrument issued to MassDEP by the ECC Corporation in Holden, MA for failure to renew the financial instrument. All other instruments reviewed were in order.
Met the goal of reducing the backlog of open LUST sites; achieved completion of clean-ups at more than twice as many new LUST releases as were reported during this period; new releases were addressed and are on track toward cleanup
Worked closely with EPA personnel to ensure that MCP requirements and MassDEP policies and guidance were considered in selecting cleanup goals for the 6 cleanup decisions and settlements signed

STATUS
Provided a priority list to the Army Corps of Engineers; worked with EPA and DoD to set cleanup goals and set priorities at active and closed federal facilities; shared all FUDS documents, including the Management Action Plan, with EPA
Provided technical assistance at a several ranges upon request or related to enforcement or compliance cases
Worked with several ranges on remedial plans resulting from enforcement cases, water supply concerns, and property development plans
Updated the list of ranges and conducted triage using GIS mapping of potential problem ranges
Formulated tentative plans for a Spring 2008 seminar in partnership with GOAL; seminar not yet confirmed
Served actively on the Executive Committee in charge of organizing the Brownfields 2006 Conference
Developed four comprehensive handouts for the conference featuring state and federal brownfields programs that continue to be used
Presented a half-hour film that featured six successfully redeveloped brownfields sites; the film has been shown several times since at state and federal forums
Staffed a booth at the Brownfields 2006 Conference that featured information on state and federal brownfields programs. MassDEP and MassDevelopment co-hosted a lunch for brownfields developers, partner agencies, and others involved with brownfields redevelopment in Massachusetts
Partnered with 46 communities to help resolve technical issues related to local brownfields sites, and served actively on local and regional brownfields task forces
Assisted 263 projects located in 115 communities, and assisted the OAG in negotiating six CNTS Agreements and two amendments to existing agreements
Published draft regulations on April 20, 2007 and amended the package based on public comments; met with external workgroup on October 11, 2007
Included as part of the asbestos regulations package, above; received comments on proposed changes, made revisions based on comments and prepared final draft for approval.

STATUS
Convened and met with external workgroup; drafted a conceptual approach to addressing historic fill
<del>Scoping the Comprehensive Policy on evaluating the feasibility of</del> remedial alternatives, of which guidance on Implementing Monitored Natural Attenuation will be a part. Target for final Policy is January 2008
Required remedial monitoring reports and supporting documents to be submitted electronically as of September 1, 2007
Offered 14 audit training classes for LSPs
Conducted public hearings and incorporated public comments into the package that included petroleum in GW-1 areas, which is expected to be published in December 2007
Hosted 4 meetings of the Waste Site Cleanup Advisory Committee (November 21, 2006 and January 25, May 24, and September 27, 2007); BWSC managers met with LSPA Board members to identify and discuss areas of concern; in conjunction with the LSPA, began
Completed draft regulations in May 2007 to implement billing non-responders, which are currently under review by MassDEP's OGC
Required remedial monitoring reports and supporting documents to be submitted electronically; developed a site file viewer that will be available for use in 2008; compiled and updated weekly a list of all electronical submittals that service centers can offer to supplement
Enforced: against PRPs who failed to notify or who notified late of releases; for violations of deadlines for required submittals especially when time critical site conditions exist; and for violations of performance standards. Monitored Notices of Audit Findings for situations that may warrant direct enforcement against LSPs. BWSC refers LSPs to the Board for license sanctions.

BWP inspected a total of 635 hazardous waste generators, recycling facilities and treatment storage and disposal facilities and initiated 43 Higher Level (orders, fines and penalties) and 132 Lower Level (Notices of Non Compliance) enforcement actions
BWP conducted a total of 13 onsite inspections at 13 TSDFs. No enforcement actions were initiated
BWP conducted a total of 155 inspections at 94 large quantity generators and initiated 14 Higher Level (orders, fines and penalties) and 41 Lower Level (Notices of Non Compliance) enforcement actions

STATUS
BWP inspected a total of 635 hazardous waste generators, recycling facilities and treatment storage and disposal facilities and initiated 43 Higher Level (orders, fines and penalties) and 132 Lower Level (Notices of Non Compliance) enforcement actions
BWP inspected 60 randomly selected small quantity generators in order to assess the overall environmental performance of small quantity generators in the state. The results are being analyzed
wrote a progress report and submitted to EPA. Formulated and finalized a compliance inspection cover sheet and a standardized multimedia inspection form for all regions to use. Submitted these devices to EPA as a response to need for better tracking of inspection file contents, accountability and identification of specific violations as they relate to ultimate enforcement.
ongoing
BWP approved 218 solid waste management permits, denied 1 and determined that 1 was not required. 17 applications were withdrawn by the applicant
Asbestos inspection protocol being reviewed. Following the completion of this task, BWP will update permits as necessary
On hold pending HW Part B renewal work. May resume work FY08
Ongoing
BWP conducted 741 site visits of various types at solid waste management facilities, reviewed 638 self reports, and initiated 28 Higher Level Enforcement Actions (orders, fines or penalties) and 46 Lower Level Enforcement actions (Notices of Non Compliance)

STATUS
BWP issued 22 Lower Level Enforcement actions (Notices of Non Compliance) to solid waste haulers and generators for the disposal of "banned" materials
Funds for this project have not been made available
BWP approved 17 permits for the beneficial reuse of solid waste streams that would otherwise have to be disposed of in landfills or solid waste incinerators
Collected and conducted QA/QC of 2005 Toxics Use Data, drafted 2005 Toxics Use Information Release, collected most 2006 toxics use reports and began data QA/QC and analysis, conducted enforcement against non-reporters, developed new approach for toxics use reduction planner enforcement
Promulgated Phase 1 regulations and revised reporting guidance in June 2007, implementing statutory reporting changes; drafted Phase 2 planning regulations and held public hearing and comment in August 2007; drafted guidance for resource conservation planning, EMS under TURA, and revised toxics use reduction planning guidance
Proposed Phase I regulations (covering mercury switches in end-of-life vehicles, manufacturers' collection/recycling plans, & lamp manufacturers' obligations), received public comment, and prepared final rules for senior MassDEP management review. Drafted Phase II regulations on sales ban/exemption process, labeling requirements, and disposal ban, and started discussions with the Solid Waste Advisory Committee. Participated in IMERC review of mercury product notifications, labeling plans, and guidance for cleaning up broken CFLs. Continued work with NEWMOA on high school mercury cleanouts. Continued to conduct outreach to regulated universe about mercury products requirements
